

## Model N530 Visible

The NewDEL™ VIS fiber-coupled LED product group encompasses eight narrowband sources with center wavelengths ranging from 425 nm to 680 nm. The collection includes phosphor-coated green and amber LEDs to address the so-called green gap problem – the lack of a high efficacy semiconductor materials system for the greenyellow spectral region.

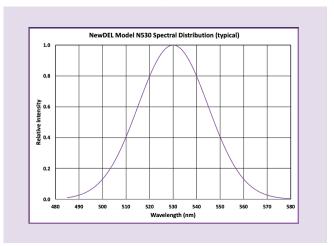

# VDC POWER O RS232 MONITOR TRIGGER &

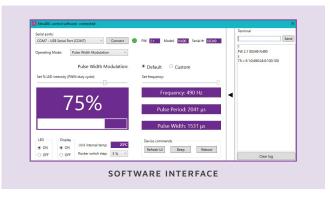

#### **SPECIFICATIONS**

- Central wavelength: 530 nm
- FWHM: 35 nm
- Recommended fiber patch cable: FP63P, High-NA, Plastic Optical Fiber, NA 0.63
- Optical power emitted (typical maximum): 100 mW
- SMA905 connector (FC option upon request)

#### **APPLICATIONS**

- Fluorescence excitation of CY3, Alexa Fluor 532
- Photobiomodulation
- Controlled topology in photopolymerization
- Photocuring acrylate-based dental resins

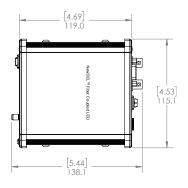

### **NewDEL™ Dimensions**

# **NewDEL™ Specifications**

Optical coupling       SMA 905 type connector for multi-mode optical fibers with core diameters up to 1000 μm (FC connector optional)         Optical output power (typical)       100 mW         Wavelength range       530 nm         Operating modes - Pulse Width Modulation       Default 490Hz Custom (user set) 1-500Hz         Operating modes - Internal Trigger       Set Pulse Delay 10ms - 32s         Set Pulse Duration 10ms - 32s         Operating modes - External Trigger       LED output controlled by 0-5V TTL         Serial Interface       RS-232, DB-9 female Converter cable RS-232 to USB-A (FTDI) is included         Trigger connector       Optically isolated BNC, 50 Ohms for External Trigger mode Cable not included         Monitor connector       BNC, 50 Ohms for reading PWM or pulse waveform Cable not included         Manual operation       Front panel intensity switch for Pulse Width Modulation mode Step size set by software; 1, 2, 4, 5, or 10 percent         Remote Operation - Software       Windows based GUI, available by download         Remote Operation - Programmability       Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems         Front Panel Display       Passive cooling via conduction Internal temperature sensor/monitor readable by software         Power supply       Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 15 m cord length, DoE VI Efficiency, Class B EMI, Safety Approv		
Wavelength range         530 nm           Operating modes - Pulse Width Modulation         Default 490Hz Custom (user set) 1-500Hz           Operating modes - Internal Trigger         Set Pulse Delay 10ms - 32s Set Pulse Duration 10ms - 32s Set Pulse Duration 10ms - 32s Set Pulse Duration 10ms - 32s           Operating modes - External Trigger         LED output controlled by 0-5V TTL           Serial Interface         RS-232, DB-9 female Converter cable RS-232 to USB-A (FTDI) is included           Trigger connector         Optically isolated BNC, 50 Ohms for External Trigger mode Cable not included           Monitor connector         BNC, 50 Ohms for reading PWM or pulse waveform Cable not included           Manual operation         Front panel intensity switch for Pulse Width Modulation mode Step size set by software; 1, 2, 4, 5, or 10 percent           Remote Operation - Software         Windows based GUI, available by download           Remote Operation - Programmability         Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems           Front Panel Display         Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency           Thermal management         Passive cooling via conduction Internal temperature sensor/monitor readable by software           Power supply         Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 15 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUI/UI, RC	Optical coupling	
Operating modes - Pulse Width Modulation         Default 490Hz Custom (user set) 1-500Hz           Operating modes - Internal Trigger         Set Pulse Delay 10ms - 32s           Set Pulse Duration 10ms - 32s           Operating modes - External Trigger         LED output controlled by 0-5V TTL           Serial Interface         RS-232, DB-9 female           Converter cable RS-232 to USB-A (FTDI) is included           Monitor connector         Optically isolated BNC, 50 Ohms for External Trigger mode           Cable not included           Manual operation         Front panel intensity switch for Pulse Width Modulation mode           Step size set by software; 1, 2, 4, 5, or 10 percent           Remote Operation - Software         Windows based GUI, available by download           Remote Operation - Programmability         Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems           Front Panel Display         Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency           Thermal management         Passive cooling via conduction Internal temperature sensor/monitor readable by software           Power supply         Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUL/UL, RCM, CB, CE (international socket blade options)	Optical output power (typical)	<b>100</b> mW
Operating modes - Internal Trigger  Set Pulse Delay 10ms - 32s  Set Pulse Duration 10ms - 32s  Operating modes - External Trigger  LED output controlled by 0-5V TTL  Serial Interface  RS-232, DB-9 female Converter cable RS-232 to USB-A (FTDI) is included  Trigger connector  Optically isolated BNC, 50 Ohms for External Trigger mode Cable not included  Monitor connector  BNC, 50 Ohms for reading PWM or pulse waveform Cable not included  Manual operation  Front panel intensity switch for Pulse Width Modulation mode Step size set by software; 1, 2, 4, 5, or 10 percent  Remote Operation - Software  Windows based GUI, available by download  Remote Operation - Programmability  Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems  Front Panel Display  Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Power supply  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUI/UI, RCM, CB, CE (international socket blade options)	Wavelength range	<b>530</b> nm
Operating modes - External Trigger  LED output controlled by 0-5V TTL  Serial Interface  RS-232, DB-9 female Converter cable RS-232 to USB-A (FTDI) is included  Trigger connector  Optically isolated BNC, 50 Ohms for External Trigger mode Cable not included  Monitor connector  BNC, 50 Ohms for reading PWM or pulse waveform Cable not included  Front panel intensity switch for Pulse Width Modulation mode Step size set by software; 1, 2, 4, 5, or 10 percent  Windows based GUI, available by download  Remote Operation - Programmability Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems  Front Panel Display  Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUI/UI, RCM, CB, CE (international socket blade options)	Operating modes - Pulse Width Modulation	Default 490Hz Custom (user set) 1-500Hz
Serial Interface  RS-232, DB-9 female Converter cable RS-232 to USB-A (FTDI) is included  Trigger connector  Optically isolated BNC, 50 Ohms for External Trigger mode Cable not included  Monitor connector  BNC, 50 Ohms for reading PWM or pulse waveform Cable not included  Front panel intensity switch for Pulse Width Modulation mode Step size set by software; 1, 2, 4, 5, or 10 percent  Windows based GUI, available by download  Remote Operation - Programmability Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems  Front Panel Display Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management Passive cooling via conduction Internal temperature sensor/monitor readable by software  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUL/UL, RCM, CB, CE (international socket blade options)	Operating modes - Internal Trigger	
Trigger connector  Optically isolated BNC, 50 Ohms for External Trigger mode Cable not included  Monitor connector  BNC, 50 Ohms for reading PWM or pulse waveform Cable not included  Manual operation  Front panel intensity switch for Pulse Width Modulation mode Step size set by software; 1, 2, 4, 5, or 10 percent  Remote Operation - Software  Windows based GUI, available by download  Remote Operation - Programmability  Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems  Front Panel Display  Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Power supply  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DDE VI Efficiency, Class B EMI, Safety Approvals: cut/UL, RCM, CB, CE (international socket blade options)	Operating modes - External Trigger	LED output controlled by 0-5V TTL
Monitor connector  BNC, 50 Ohms for reading PWM or pulse waveform Cable not included  Front panel intensity switch for Pulse Width Modulation mode Step size set by software; 1, 2, 4, 5, or 10 percent  Windows based GUI, available by download  Remote Operation - Programmability  Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems  Front Panel Display  Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Power supply  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: CUL/UL, RCM, CB, CE (international socket blade options)	Serial Interface	
Manual operation  Front panel intensity switch for Pulse Width Modulation mode Step size set by software; 1, 2, 4, 5, or 10 percent  Remote Operation - Software  Windows based GUI, available by download  Remote Operation - Programmability  Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems  Front Panel Display  Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: CUL/UL, RCM, CB, CE (international socket blade options)	Trigger connector	
Remote Operation - Software  Windows based GUI, available by download  Remote Operation - Programmability  Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems  Front Panel Display  Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: CUL/UL, RCM, CB, CE (international socket blade options)	Monitor connector	
Remote Operation - Programmability  Serial commands are provided to control a unit and query its status using a terminal program or other suitable programming systems  Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Power supply  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUL/UL, RCM, CB, CE (international socket blade options)	Manual operation	
terminal program or other suitable programming systems  Passive Matrix OLED, can be deactivated through software % PWM Intensity or trigger operating mode with frequency  Thermal management  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Power supply  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUL/UL, RCM, CB, CE (international socket blade options)	Remote Operation - Software	Windows based GUI, available by download
or trigger operating mode with frequency  Passive cooling via conduction Internal temperature sensor/monitor readable by software  Power supply  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUL/UL, RCM, CB, CE (international socket blade options)	Remote Operation - Programmability	
Power supply  Universal AC/DC Wall adapter, 90 to 264VAC at 47 to 63Hz input 12V 12W output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUL/UL, RCM, CB, CE (international socket blade options)	Front Panel Display	
output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals: cUL/UL, RCM, CB, CE (international socket blade options)	Thermal management	
Dimensions/Weight 4.7 x 4.5 x 2.0 in (119.1 x 115.1 x 51.6 mm) / 1.1 lbs (0.5 kg)	Power supply	output, 1.5 m cord length, DOE VI Efficiency, Class B EMI, Safety Approvals:
	Dimensions/Weight	4.7 x 4.5 x 2.0 in (119.1 x 115.1 x 51.6 mm) / 1.1 lbs (0.5 kg)
